Subject: Suggested Publication Pricing

The LCC sets the prices charged for the ***Legislative Highlights***.

Due to the lag time between the availability of the publications and the receipt of the printer's bill, you have historically set the price in the year preceding the publication. Based on cost estimates from 2022 it is recommended the pricing remain at the current rate of \$0.75 cents each which includes sales tax.

***Summary of Legislation*** books are no longer sent for printing or sold due to the high cost of production and lack of requests for bound copies. An electronic version is available on the Kansas Legislative Research Department website.
